Mr. Dick Padget Facility Engineer Bunker Limited Partnership P.O. Box 29 Kellogg, ID 83837

Dear Mr. Padget:

This letter is to follow up on our telephone conversation of January 17, 1986 concerning asbestos removal activities at the Bunker Limited

The National Emissions Standards for Asbestos require that you provide written notice to the Environmental Protection Agency (EPA) in advance of any demolition or renovation operation involving friable asbestos material to allow EPA to ensure that the demolition or renovation operation proceeds must include an estimate of the amount of friable asbestos material present tions involving individual nonscheduled operations, the additive amount (not to exceed one year) can be reported.

Enclosed is information on notification requirements, a notification form, and a copy of the Federal Regulations. Please provide notification concerning any asbestos renovation and/or demolition operations. If you have any questions please contact me at (208) 334-9389.

Sincerely,

Albert L. Odmark, Jr.

Environmental Protection Specialist
